

There are risks involved in farming and there are no guarantees when dealing with Mother Nature, humans and animals. Things beyond our control may arise and we will deal with them accordingly. Everyone must remain flexible if a situation arises.

We will continue to provide the best service possible to get you your share in a timely and orderly fashion. If you have questions, or concerns please call or email us. Thank you!

Want a free share? Host a CSA drop at your home or business. We would need a minimum of 10 people to sign up. We then would drop the shares at that location you would coordinate the pickups from there. Use your network to build interest and let us know where you are located and we will help you build interest through our social media etc. Call or email us with any questions.

Please support our local farmers and Farm to Family. Together we can make positive changes to our food system, create local resiliency, educate our youth, create jobs and eat healthier. A portion of our CSA sales will be donated to our NPO **BUSFARM** and urban farm project. Thanks for your support!

## ABOUT FARM TO FAMILY

**Farm to Family** is headquartered in Richmond, VA and started as a mobile farmer's market in a converted school bus in 2009. We have grown to include an indoor market, CSA and **BUSFARM** our non-profit urban farm. We connect local farmers with communities, encouraging a local diet of fresh products grown and made right here in our local food shed. We build relationships with families and their food by visiting neighborhoods, schools, and senior homes with the bus.

Farm to Family and the **FARMBUS** have been featured on **BBC World News**, the **Rachael Ray Show**, **CNN**, **700 Club** and in **People Magazine**.
